Class/Group Visits	30	15	15

Choosing to visit the school library as an individual, separate from a class visit, is a strong indicator of higher test scores.

This report covers the research findings from the three Colorado School Library Impact Studies as well as those reported in Fast Facts Nos. 180 and 287 from the Library Research Service, which show that CSAP reading scores increase with improvements in school library programs. Various predictors of academic achievement are reported for the school and its peers. Note that these predictors cannot be explained away by school or community differences.
