

## **Teacher Librarians/Media Specialists at the Elementary Level**

The following summary and chart reveal the results of a survey posted to the Colorado School Libraries Leaders (CoSLL) listserv by Connie Masson, Coordinator, District Media Services of St. Vrain School District.

Currently, many districts do not have Teacher Librarians at the elementary level; however it appears that the trend may be to start moving in that direction.

The survey asked respondents to identify the following:

### **Teacher Librarians/Media Specialists at the elementary level**

- a. Across the District**
- b. Some but not all**
- c. Part of next year's plan**

### **Media Clerks as well in the elementary**

- a. Part-time**
- b. Full-time**
- c. Both based on student count**

### **Library management that is**

- a. Site-based with dotted line to centralized**
- b. Centralized with dotted line to site-based**
