State Aid to Public Libraries--4/2005				
	What is/are the disbursement formula(s)?	Are there expenditure requirements?	If yes, what are they?	Must state aid be expended in the year received?
Alabama				
	We take 75% of the grant line awarded to the State Library (we got \$891,400 in FY2005) and simply divide that 75% of the grant line by the total number of eligible outlets. The remaining 25% is used for project grants, just as nearly all of our LSTA funds are used for project grants.		Public library assistance grant funds may be spent on operating or capital expenditures, at the discretion of the library. Libraries must provide a \$7,000 match to be eligible to apply for the full amount of the public library grant. Every library outlet that receives the grant must spend at least \$3,500 on library materials for patron use. This money can be local match or grant money, just so long as they buy new stuff for the patrons to use.	
Alaska		yes		Yes, though we do give them short term extensions to finish up expenditures
Arizona				
Arkansas				
	The state awards a dollar amount to qualifying public libraries equal to the proportional share of the total amount appropriated by the Legislature and signed by the Governor each year, based on the population of the library's service area as certified by the State Librarian, each spring prior to the year of award. The population factor used is based on census data compiled annually by the Dept. of Finance for the entire state.	no		no
California				
	very complex The formula for determining grant amounts is included in the state statutes. It provides for a base grant of \$1200 to each library, plus additional amounts for equalization based on town AENGLC (Adjusted Equalized Net Grand List Per Capita) rankings and for incentive based on each town's per capita library expenditures.	yes	For " general library purposes."	no, must be expended within 2 fiscal years.
Connecticut				

State Aid to Public Libraries--4/2005				
	What is/are the disbursement formula(s)?	Are there expenditure requirements? If yes, what are they?		Must state aid be expended in the year received?
Delaware		yes	§ 6603. Limitation on expenditures. (a) In no case shall the Division pay, for the services received, more than was expended, exclusive of state and federal aid, by the political subdivision or organization operating the library. (b) If in any year the state appropriations to the Division for services under this chapter are not sufficient to meet the cost of approved contracts for services or state appropriations exceed the formula designated in § 6602(b) of this title, the Division shall prorate the available funds in such manner so that each public library or public library system shall receive its proportionate share. (c) In the event that no moneys are appropriated for the purpose of this chapter in any year, no public library or public library system shall have any claim to any other moneys appropriated to the Division. (64 Del. Laws, c. 400, § 1.)	no, Funds granted to any library under the provisions of 29 Del. C. c. 66, if unspent at the end of the fiscal year shall not revert to the General Fund, but instead shall be held in an account for the benefit of the library from which the unspent funds came. These funds may be spent in subsequent years for purposes described in 29 Del. C. c. 66. The use of such carryover funds shall not be used as part of any subsequent years' formula payment.
Florida	It is a very complicated formula	yes	State Aid to Libraries Grant funds must be expended for the operation and maintenance of the library and not for the purchase or construction of a library building or library quarters.	no
Illinois				
Indiana	First, anyone below \$200 based on population formula will receive \$200. The remainder of the libraries are computed based on their percentage of population to the total of the remainder of the populations for all libraries above \$200.	yes	It has to be spent on the approved expenditures within the operating fund per State Board of Accounts regulations.	no
Kansas	1/3 is distributed to the seven regional library systems; 2/3 is distributed to local public libraries on a per capita basis.	yes	STATE AID CAN BE SPENT ON ANY LIBRARY EXPENDITURES EXCEPT CAPITAL IMPROVEMENTS, UTILITIES EXCEPT TELECOMMUNICATIONS, OR RETIREMENT OF DEBT.	yes
Kentucky	Two parts: (1) Base Grant: \$7,000, \$8,000, or \$9,000 - Smaller counties get most; add this to (2) per cap amount: county population * \$.73	no		yes

State Aid to Public Libraries--4/2005				
	What is/are the disbursement formula(s)?	Are there expenditure requirements? If yes, what are they?		Must state aid be expended in the year received?
Louisiana	All 67 public libraries receive a base grant of \$9,000. The remainder is then distributed on a per capita basis. The disbursement is based on a formula where all parish libraries or municipal libraries receive a base grant of \$9,000. The remainder of the available funds is divided by the state population, with each eligible entity—parish of municipal library—receiving the appropriate per capita amount.	yes	state aid funds are to be expended only for library collection materials and/or for technology enhancement, not for personnel or other operating expenditures.	That is our preference, but sometimes we allow a carryover.
Maryland	Based on a formula that provides a certain amount per county resident (right now it is \$12 per) weighted by the wealth of the jurisdiction.	no		Not by the state; however, each jurisdiction handles this differently.
Massachusetts	Three grant formulas: (1) Library Incentive Grant--For municipalities with populations under 2,500 the LIG is equivalent to the amount appropriated by the municipality to the library in the prior year, but not more than \$1,250. Municipalities with populations of 2,500 and over receive a LIG award of \$.50 per capita. The LIG awards are prorated based on the amount of the state appropriation. (2) Municipal Equalization Grant--MEG awards are calculated based on the state lottery formula. (3) Nonresident Circulation Offset--NRC Offset awards are distributed to municipalities whose libraries report circulation to patrons from other certified Massachusetts municipalities. Beginning in FY1994, an annual appropriation of \$1,239,025 has been used. The NRC awards are prorated based on the amount of the state appropriation.	no, state aid may be expended for any library purpose		no
Michigan	\$0.4345 per capita	no		no
Missouri	At least 50% must be distributed on per capita basis.	yes	Funding may be used for any library service under state law for tax funded libraries.	YES, generally, however, if the library has an ongoing project with a completion target date in the following year that is acceptable.
Montana		yes	Money appropriated may not be used to supplant general operating funds of recipient public libraries. MCA22-1-326.	yes

State Aid to Public Libraries--4/2005				
	What is/are the disbursement formula(s)?	Are there expenditure requirements? If yes, what are they?		Must state aid be expended in the year received?
Nebraska	For population up to 4,999, \$625 + \$0.10 per capita for population 5,000 and above, \$0.18 per capita	yes, loosely applied	no	no
Nevada	NRS 378.087 at http://leg.state.nv.us/NRS/NRS-378.html			
New Jersey		yes	Must be spent within 2 years of receipt and must be spent for library purposes.	no, must be spent within 2 years.
New Mexico	Based on each grant--Library Development Grants, Basic Collections Grants, Matching Collections Grants, Staff CE Grants, Per Capita Distribution Grants, Library Branch Grants, Cooperative & Outreach Grants.	yes	Different for each grant.	Different for each grant.
New York	Some of the grant programs are run on formula grants, i.e., basic state aid, book aid, etc.; others, i.e., construction aid, constant in amount each year as determined by statute (except, of course, when subject to cuts in the state budget!), is distributed to each of the 23 public library systems and it is they who determine to whom and how much their member libraries get based on submitted applications.	yes		yes
North Carolina	The formula allocates 50 percent of the total State Aid to Public Libraries appropriation as equal block grants to each eligible county, plus an additional block grant to each multi-county regional library. The remaining 50 percent of the State Aid fund is allocated as per capita income equalization grants. Each eligible regional, county and municipal library system receives a per capita grant that is inversely proportional to the local per capita income.	yes	only used for "materials, salaries, equipment, and operating costs"	Mostly -- "Any library having an unencumbered operational balance of more than seventeen percent (17%) of the previous year's operating receipts will have the difference deducted from its state allocation." (#5 in the admin code cited)

State Aid to Public Libraries--4/2005				
	What is/are the disbursement formula(s)?	Are there expenditure requirements? If yes, what are they?		Must state aid be expended in the year received?
Pennsylvania	<p>DISTRICT LIBRARY CENTER AID: The total available for this category of aid was \$6,509,404, a \$6.5 million decrease from the prior year. This aid was specified by Section 303.8 and was paid to 28 libraries designated by the State Librarian to make their resources and services available to the people in assigned districts and to render certain other services to other local libraries in the district. The rate of this aid is \$0.52 per capita for the population of the assigned district or a minimum of \$105,000 per District Library Center. EQUAL DISTRIBUTION GRANTS: The total available for this category of aid was \$951,278, a \$.5 million decrease from the prior year. Six hundred thirty-three libraries, branches and bookmobiles each received \$1,502.81 as an equal distribution grant to supplement their materials budget. These library units met or exceeded the basic standards in order to qualify for this grant. EQUALIZATION AID: The total available for this category of aid was \$552,205, a \$.3 million decrease from the prior year. It was distributed to libraries serving economically distressed communities, as provided.</p>	yes	State aid must be expended to assist in the support and maintenance of local libraries, county libraries, library systems, district library centers and/or statewide library resource centers.	yes
Rhode Island	<p>State's share shall be equal to at least 25% of both the amount appropriated and expended in the second preceding fiscal year by the city or town from local tax revenues and funds from the public library's private endowment that supplement the municipal appropriation, provided, however, the state in any year shall not be obligated to match any amount from the endowment that exceeds six percent (6%) of the three (3) year average market value, calculated at the end of the calendar year, of the investments in the endowment. The amount of the grant payable to each municipality in any year in accordance with this section shall be reduced proportionately in the event that the total of those grants in any year exceeds the amount appropriated that year for the purposes of this section. (Title 29 Chapter 29-6 Section 29-6-2)</p>	yes	<p>The libraries must submit a Certification of Appropriation and Expenditure. The allocation of Grant-in-Aid (GIA) appropriation are automatically entered on the Certification from the Application for Grant-in-Aid. GIA allotment changes must be approved by the State before expended.</p>	No, but it is expected that carryover will be low unless their plan calls for some long range goal that requires a reserve fund (i.e., automation system).

State Aid to Public Libraries--4/2005				
	What is/are the disbursement formula(s)?	Are there expenditure requirements?	If yes, what are they?	Must state aid be expended in the year received?
South Carolina	Per capita, min \$40,000 per county Loan Star Libraries grants will be awarded according to the following formula:(1) Base Grant. One-quarter (25%) of the total funds allocated for Loan Star Libraries Grants constitutes a base award and will be divided equally among those libraries eligible for the program that either:(A) provide library services to non-residents without charge, or (B) participate in the TexShare Library Consortium card program. (2) Matching Grant. Three-quarters (75%) of the total funds allocated for Loan Star Libraries Grants constitutes a matching award and will be awarded to eligible libraries as a percentage match on their total local operating expenditures (as reported in the most recently collected report, as required by §1.85 of this part) minus any indirect costs (as reported in the most recent state collected public library annual report) as follows:A) Libraries that provide library services to non-residents without charge will be allocated 100% of their eligible match. (B) Libraries that do not provide library services to non-residents without charge, but participate in the TexShare card program will be allocated	yes	Can not be used for general maintenance of library.	Yes
Texas				
Utah		yes	Specifically, the grant may not be used for ongoing operational/personnel costs, grounds, building maintenance, or matching federal LSTA grants.	

State Aid to Public Libraries--4/2005				
	What is/are the disbursement formula(s)?	Are there expenditure requirements? If yes, what are they?		Must state aid be expended in the year received?
Virginia	<p><i>Code of Virginia</i> § 41.1 - 48 contains the formula. Local effort: 40% of every [local] dollar expended by the political subdivision(s) in the system. The grant to any county or city shall not exceed \$250,000. Plus. Per capita: Based on population of area served and number of participating municipalities. Libraries serving in excess of 600,000 receive 10 cents per capita for remaining population. Plus. Square mileage: \$10 per square mile for single jurisdiction (county or city) libraries plus an additional \$20 per square mile for libraries serving more than one political jurisdiction (regionals).</p>	yes	Grants - in - aid shall be used as supplements to local funds. The amount of any undesignated balance in the local operating budget at the end of the fiscal year which exceeds 10% will be subtracted from the grant which is based on that years expenditures.	yes
West Virginia	<p>It's all based on per capita for Census 2000 population. There have been some minor changes.</p>	no		no
Wisconsin	<p>Until aid was distributed on the basis system of population, square mile area, and expenditures for public library service from local and county funds. The formula was then changes so that 85% would be distributed on the basis of population, 7.5% on the square mile are, and 7.5% on a factor calculated to equalize aid (an adjustment would be made for areas with a relatively high tax rate, but a low per capita tax rate - a very complex calculation). The new formula was to begin when a certain level of state funding was achieved. We haven't reached that level yet. The backup formula is that each system gets the same percentage in or decrease depending upon what the total state aid appropriation is. So since 1999 systems have gone up or done by the same percentage and there is no longer any direct relationship with the original formula factors.</p>	yes	Funds must be used for public library service.
