

Response Rates: Colorado Public Libraries Restoration of Services Survey

In late May 2020, the survey was sent directly to public library directors in Colorado's 113 public library jurisdictions as well as to 8 member libraries (which are part of a jurisdiction but make at least some decisions autonomously). The survey received 76 responses from jurisdictions (67% of jurisdictions) and two from member libraries (25% of member libraries).

*Numbers in parentheses indicate the number of responding libraries and the total number of libraries within each category. For example, two out of the eight member libraries in Colorado responded to the survey.

**LSA populations are not available for member libraries.

*Numbers in parentheses indicate the number of responding libraries and the total number of libraries within each category. For example, six out of the 11 county libraries in Colorado responded to the survey.
